

[www.tscferries.com](http://www.tscferries.com)

Specialized in Ro-Pax and Ro-Ro transportation on the Türkiye–Russia corridor.

Regular sailings from Haydarpaşa and Karasu to Russia's Tuapse Port.

Strong fleet and high safety standards.

A fast and reliable maritime bridge across the Black Sea.

Integrated maritime and logistics solutions.

## MULTIPLE LOGISTICS SOLUTIONS UNDER ONE ROOF

TSC Ferries Group is a Türkiye-based integrated maritime and logistics group. With the active fleet support of Lider Ro-Ro and UGS shipowning companies, it successfully operates Ro-Ro and Ro-Pax services.

**The most ambitious operations in the Black Sea for TIR trucks, trailers, passenger vehicles, and project cargo transportation.**

## Main Sea Routes Turkey

### Türkiye – Russia

- Haydarpaşa ▶ Tuapse
- Karasu ▶ Tuapse

### Russia - Türkiye

- Tuapse ▶ Haydarpaşa
- Tuapse ▶ Karasu

# INTEGRATED LOGISTICS: WHAT DO WE TRANSPORT?

Comprehensive Ro-Pax & Ro-Ro Vessel Service

---

**Commercial Cargo**  
Trucks, Trailers, Lorries

>>

**Passenger & Commercial Vehicles**  
All types of wheeled/ palleted vehicles (Buses, minibuses, passenger cars)

>>

**Project Cargo**  
Transport of heavy equipment and oversized shipments.

>>

**Passengers**  
Ro-Pax advantage for passenger transfer.

>>

We provide high capacity and operational continuity to our customers.

# Logistics Solution Partnership

Strategic planning for the fastest and most secure routes supporting the trade volume between Türkiye and Russia.

Strategic Logistics Analysis  
**2026**

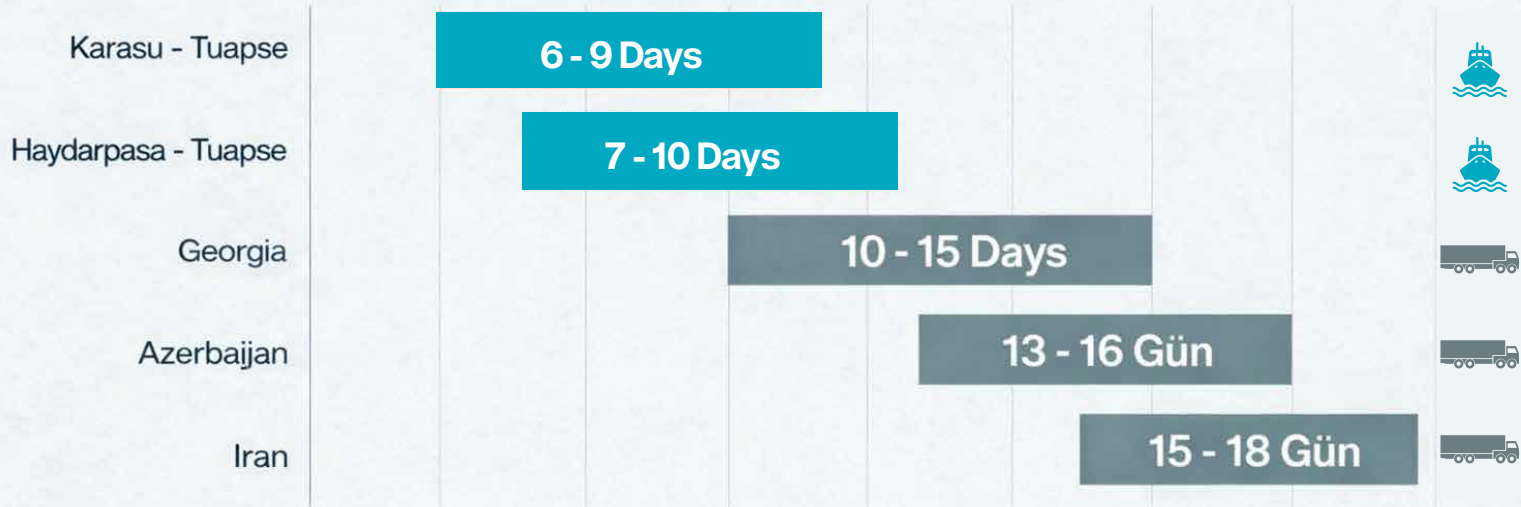

# Conclusion and Recommendation: Route Optimization

Criterion	Sea Route (Karasu)	Land Route (Iran/Azerbaijan)
Shortest Distance	✓	—
Fastest Delivery	✓	—
Driver Efficiency	✓	—
Safety	✓	—

For Moscow-bound operations, the Sakarya / Karasu-Tuapse route and the Istanbul / Haydarpasa-Tuapse route are strategic options in terms of cost and time management.

# Data Analysis: Estimated Arrival Times (Days)

Türkiye - Istanbul / Russia - Moscow

**Utilizing sea routes achieves a minimum of 9 days of time savings.**

For Moscow-bound operations, the Sakarya / Karasu-Tuapse route and the Istanbul / Haydarpaşa-Tuapse route are strategic options in terms of cost and time management.

# Data Analysis: Total Distance Comparison (KM)

Türkiye - Istanbul / Russia - Moscow

# Operational Efficiency and Intermodal Advantages

## Tachograph Advantage

During sea travel, drivers can use rest periods while the vehicle is not in motion. This optimizes legally required rest periods during the sea voyage.

# Strategic Gains: Safety and Intermodal Flexibility

## Intermodal Transport Advantage

- Seamless transition between sea and land modes.
- Direct exit of trucks onto the road speeding up port operations.
- Carbon emission advantage (**green-intermodal** logistics)

## Safest Route Advantage

- Less road driving = **Lower accident risk.**
- Elimination of border delays and uncertainties.
- Decrease in wear and tear (depreciation).
- Carbon emission advantage (**green-intermodal** logistics)

## Sea Route Solution: Direct Access via the Black Sea

# TSC FERRIES: PRIMARY OPERATOR OF THE TÜRKİYE–RUSSIA CORRIDOR

Uninterrupted Access from Haydarpaşa and Karasu Ports

Under the TSC Ferries umbrella, an expert structure specialized in Ro-Pax and Ro-Ro transportation on the Türkiye–Russia axis is provided.

- ✓ **Ro-Pax Operations:** Cargo + Vehicle + Passenger transport conducted simultaneously.
- ✓ **Secure Trade:** Provides uninterrupted logistics to the Russian market by integrating maritime and land transportation.

“Trade with Russia grows with secure maritime routes.”

# OPERATIONAL STRENGTH AND ACTIVE SHIP FLEET

High Capacity and Operational Continuity

## FLEET MANIFEST

1. Lider Express ●
2. Lider Bordo Mavi ●
3. Lider Şampiyon Trabzonspor ●
4. Lerzan K ●
5. Gülistan U ●
6. Firuze G ●

Scheduled sailings and high safety standards ensure continuous trade.

# SUSTAINABLE AND EFFICIENT LOGISTICS

## “ Ro-Ro Power Across The Black Sea ”

### **Green Logistics**

Low carbon footprint  
maritime solutions.

### **Time & Cost**

Shorter route, lower  
cost.

### **Intermodal**

Lower logistics costs  
without drivers & tractors.

# WHY TSC FERRIES?

## Shorter Routes

Optimized routes using geographical advantages

## Lower Costs

Economical solution bypassing land borders.

## Safer Trade

Planned and high-standard operations.

## Eco-Friendly Transport

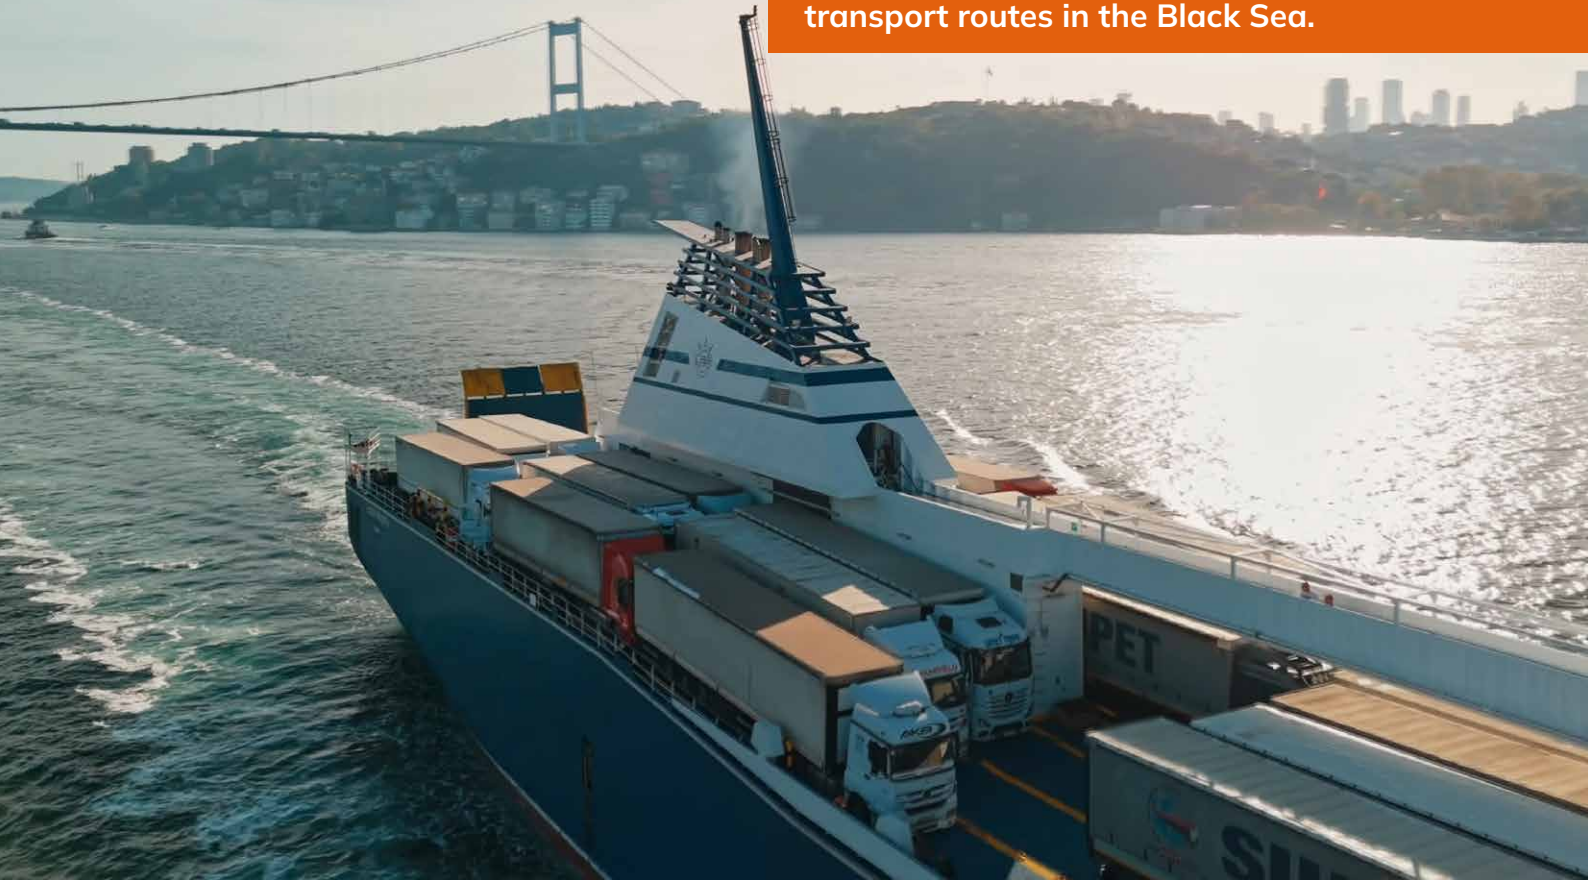

Lower emissions compared to road transport.

Making trade faster, safer, and more sustainable.

TSC Ferries aims to establish partnerships and logistics connections at different ports and routes by operating on all international global maritime transport routes in the Black Sea.
